Overview of Approved Porsche A40 Engine Oils (35/23)

Revision: This bulletin replaces bulletin Group 1 19/23, dated September 5, 2023.

Model Year: **As of 1984 up to 2020**

Vehicle type: **All Porsche vehicles, up to and including MY 2020, for which Porsche A40 engine oils are allocated.**

Note: Porsche offers special Classic oils for Porsche Classic vehicles (manufactured between 1948 and 2005). The individual products are listed in the Manufacturer's Certificate "Recommended engine oils for Classic vehicles". Porsche recommends that you use Classic oils for Classic vehicles.

Overview:

Manufacturer	Oil designation	Viscosity SAE	Sales area	valid until
AMSOIL INC	AMSOIL Synthetic European Motor Oil FS 5W-40	5W-40	Worldwide	30.04.2025

BRA	Brazil	TWN	Taiwan
CAN	Canada	UAE	United Arab Emirates
CH	Switzerland	UKR	Ukraine
CHN	China	VNM	Vietnam
DEU	Germany	ZA	South Africa

Miscibility: **All engine oils approved by Porsche can be mixed provided they are of the same Porsche oil specification.** This means that it is not necessary to flush the engine when the oil is changed if another type of oil is used. However, since every brand of oil has a specially adapted unique composition, the same brand and type of oil should be used for topping up between oil change intervals if possible.

Important Notice: Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
