## Required software

PIWIS Tester 4 test software release	42.300.030 (or higher)
--------------------------------------	------------------------

## Required tools

Designation	Part No./Specification/Special instructions
Battery charger	Battery charger with a current rating of at least 90 A and - if required - also with a current and voltage-controlled charge map for lithium starter batteries.
PIWIS Tester 4	-
Blank USB storage medium Type A+C 32 GB (for PCM update)	V04014999WW000

## WPN9 Workshop Campaign - Reprogramming central computer (PCM)

\* The PCM control unit software update is performed using a USB storage medium. The software release that is specific to each region must be downloaded using the software tool PiUS (Porsche integrated Update Service) and must be installed on a blank USB storage medium.

Pay particular attention to the following:

- For this PCM software update, the USB storage medium USB Type A+C 32 GB with the part number V04014999WW000 must be used.
- To use the software tool, one blank or re-writable USB storage medium is required for each individual software.
- The software available in PiUS must only be used in accordance with the instructions provided in a Technical Information published for this purpose.

Scope 2:

<b>Part No.*</b>	<b>Designation - Region</b>	<b>Vehicle allocation</b>
9Y2909000R	PCM software update - North America - Mexico	I-No. ER3 / ER4

## Warranty processing

Scope definition

Scope 1: Over-the-Air (OTA) software update via PCM - no invoicing possible at this time.

Scope 2: Re-programming central computer (PCM) control unit via PIWIS Tester - Vehicles without OTA activation.

Damage Number	WPN9 66 000
Repair Code	1
Labor time	73 TU

The campaign that was carried out does not need to be entered in the Warranty and Maintenance logbook for this campaign.
