SUBJECT: Sales Suspension of Accessory Bar for DL1050/DE

Dear Sirs and Mesdames,

We regret to inform you that we are currently suspending the supply of the Accessory Bar (p/n 990D0-06L00-030) for DL1050/DE from Magyar Suzuki since December 14th, 2023.

The reason for the suspension is that we have received the report that the bolts might interfere in the weld bead of accessory bar. (Please refer to the picture below.)

We would like you to suspend selling both of your warehouse and dealer stock.

We are still investigating its cause and countermeasure yet to be determined. We are doing our utmost to resume the supply of the Accessory Bar and will keep you updated on the situation.

We apologize for the inconvenience this has caused you.

Your kind attention and understanding would be highly appreciated.

Yours faithfully,

A handwritten signature in blue ink that reads 'Y. Takahashi'.
