

BULLETIN No. 23-012:

Dear Valued Distributor:

Jerr-Dan is pleased to announce updates to the XLP Carrier Autogrid. The following updates are categorized by enhancements, Aftermarket upfit kits, and service/rebuild kits.

Autogrid Enhancements – Improvements/Accessories now available for Autogrid

- Autogrid Rubber Crossbar Wrap – 1001294420 qty 1
- Reese Hitch Attachment – 1001289796S
- Level stop – 1001292363S (6 Func), 1001292365S (8-10 Func)
- Wheel Lift Hook-up Camera – 1001289982S (If no Backup Camera), 1001289983S (If adding to existing Jerr-Dan Back-up Camera)

Aftermarket Autogrid Upfit Kits

Distributors can now order an upfit kit to add an Autogrid to any in-service 6-ton XLP (W/ U/L LUGS) in the field. The top level upfit kit includes: 6-function valve bank, control station, U/L boom assembly, 180 deg Autogrid assembly, cylinders, link arms, and all associated hardware for a plug and play installation.

- Painted Autogrid Upfit Kit - 1001293185
- Galvanized Autogrid Upfit Kit - 1001293186

Autogrid Service/Rebuild Kits

The following kits have been created to make it simple for users to order serviceable components of the Autogrid to maintain their equipment in the field.

- Kit, L-Arm Wear Plates - 1001293194
- Kit, Grid Bottom Wear Plate - 1001293195
- Kit, Pivot Rebuild – 1001293196

If you have any questions, please reach out to your District Sales Manager.

Thank you.
