YEAR(S)	MODEL(S)	ADDITIONAL INFORMATION
2024	Corolla Cross, Corolla Cross HV	

Introduction

Pre-Delivery Service (PDS) is a critical step in satisfying our new car customers. Customer feedback indicates the following areas deserve special attention when performing PDS:

- Careful inspection for paint chips/scratches and body dents/dings.
- Proper operation of electrical accessories (including interior light, clock, and radio reset).
- Interior cleanliness.
- Proper function of mechanical systems.

Customer retention and proper maintenance of vehicles are and have always been a major focus for Toyota. To help remind customers that regular service is essential to the proper maintenance of the vehicle, dealers are required to install a service reminder sticker before delivery. By doing this, customers will be reminded to return to your dealership for service. Your current service reminder sticker may be used. (See PDS Check Sheet item 8 of “Final Inspection and Cleaning.”)

This bulletin contains the PDS procedures that apply specifically to 2024 model year Corolla Cross and Corolla Cross Hybrid vehicles. A universal PDS [Check Sheet](#) that contains PDS steps that apply to all 2024 model year Toyota vehicles has been developed. To properly perform a complete PDS, you must complete all procedures contained in this TSB as well as the universal PDS [Check Sheet](#).

In addition, if the vehicle is stored for over 30 days, be sure to follow [Long-Term Vehicle Storage Guidelines](#).

Warranty Policy

If the need for additional repairs or adjustment is noted during PDS, the required service should be performed under warranty. Reimbursement will be managed under the warranty policy.

The Warranty Policy and Procedures Manual requires that you maintain the completed Check Sheet in the customer's file. If you cannot produce a completed form for each retailed vehicle upon TMS and/or Region/Distributor audit, the PDS payment amount will be subject to debit.

An additional Repair Order completed in conjunction with normal PDS MUST have time punch/flags for service. If multiple repairs are performed, separate time flags MUST be punched for each repair.

Warranty Information

OP CODE	MODEL	DESCRIPTION	TIME	OFF	T1	T2
001013	Corolla Cross	Pre-Delivery Service (PDS)	1.0	-	-	-
	Corolla Cross HV		1.4			

Required Tools & Equipment

REQUIRED EQUIPMENT	SUPPLIER	PART NUMBER	QTY
Techstream ADVi*	ADE	TSADVUNIT	1
Techstream 2.0		TS2UNIT	
Techstream Lite		TSLITEPDLR01	
Techstream Lite (Green Cable)		TSLP2DLR01	

*Essential SST.

NOTE

- Only ONE of the Techstream units listed above is required.
- GTS+ software version 2023.03.002.02 or later is required.
- Additional Techstream units may be ordered by calling Approved Dealer Equipment (ADE) at 1-800-368-6787.

2024 Corolla Cross and Corolla Cross HV Pre-Delivery Service (PDS)

D/C Cut Fuse Installation

The D/C cut fuse (30A) has been removed at the assembly plant to reduce parasitic current draw in transit and storage. The removed D/C cut fuse (30A) is stored in the blank space of the relay block in the engine compartment. The D/C cut fuse (30A) **MUST** be reinstalled to the original location during PDS.

Figure 1.

A	Gasoline Vehicles
B	Hybrid Vehicles
1	Relay Block

2	Remove the D/C Cut Fuse (30A)
3	Install the D/C Cut Fuse (30A) (Original Location)

NOTE

- With the D/C cut fuse (30A) removed, if ANY DTCs are detected when the ignition is turned on during transportation, use Global Techstream Software (GTS+) to clear ALL DTCs AFTER ensuring that there are no malfunctions.
- While the vehicle is stored at the dealership, disconnect the negative (-) battery terminal to prevent battery discharge. Refer to [T-SB-0024-23](#), *Battery Maintenance During PDS* for battery maintenance information.

2024 Corolla Cross and Corolla Cross HV Pre-Delivery Service (PDS)

Front License Plate and Mounting Bracket Installation

The front license plate bracket and two self-tapping screws are loaded in the luggage compartment at the assembly plant. Follow this procedure to install the front license plate bracket and front license plate in states where it is required by law.

1. Install the bracket rib into area "A" of the grille.
2. Press the front license plate bracket onto the grille until the clips engage.
3. Align the holes on the front license plate bracket with the dimples on the front of the grille.

Figure 2.

A	Area A

2024 Corolla Cross and Corolla Cross HV Pre-Delivery Service (PDS)

Front License Plate and Mounting Bracket Installation (continued)

4. Install two self-tapping screws through the holes on the front license plate, bracket, and lower grille.

NOTICE

- Do NOT pre-drill holes.
- Do NOT over-tighten the self-tapping screws.

Front and Rear Emergency Towing Eyelet Removal and Hole Cover Installation

1. Remove the front AND rear emergency towing eyelets from the front and rear bumpers by turning them counterclockwise.

NOTE

- If it is difficult to loosen the emergency towing eyelets, use a steel bar.
- Dispose of the removed emergency towing eyelets.

Figure 4.

3	Rear No. 2 Emergency Towing Eyelet Hole Cover

2024 Corolla Cross and Corolla Cross HV Pre-Delivery Service (PDS)

Installation of Rubber Body Plugs

1. Confirm the number of plugs in the glove box. If two plugs are present, perform substep 2A ONLY. If four plugs are present, perform substep 2A AND substep 2B.
2. Install plugs according to the instructions below by confirming the number of plugs in the glove box.
 - A. Install two plugs in the rear side member hole or rocker inner hole as shown.
 - B. Install two plugs in the torque box hole or rocker inner hole as shown.

Figure 6.

1	Front Side
2	Rear Side
3	Torque Box Hole or Rocker Inner Hole
4	Rear Side Member Hole or Rocker Inner Hole
5	Rocker Inner
6	Install Plug Here (if Applicable)

NOTICE

- The installation of these plugs is required to prevent rust.
- These plugs are stored in the glove box.
- The number of plugs may vary according to production locations in the same vehicle model.

2024 Corolla Cross and Corolla Cross HV Pre-Delivery Service (PDS)

Tire Pressure Warning System (TPWS) Initialization

Refer to the applicable Repair Manual for the TPWS [initialization procedure](#). Note the spare tire does NOT have a TPWS sensor.

NOTE

To adjust the tire pressure correctly when the outside temperature is significantly colder than shop temperature, perform a Health Check using GTS+ and select the compensation tire pressure checkbox. Compensation pressures will display on the Health Check results screen. Adjust the tire pressure when the tires are cold.

Head Unit System Reset

Before selling a Toyota vehicle, please confirm that the welcome screen with language options appears on the head unit display when ignition is switched to the ON position. There may be instances where the welcome screen with language options may not properly appear on the head unit display.

If the welcome screen showing language options is not displayed, complete the following steps:

1. Select the Settings option (gear icon).
2. Scroll down and select the Info & Security option.
3. The System Reset dialogue box will appear. Select Reset to confirm the resetting of system.
4. Confirm that the welcome screen with language options is now displayed.

Dealer Contact Information for Call Dealer Head Unit Function

Refer to the *Multimedia System Owner's Manual* to [add dealer contact information](#).

See section 2-9 *Vehicle settings – Setting dealer information*.

Navigation — Set Date & Time by GPS

Prior to vehicle delivery, it is necessary to turn the Set Date & Time by GPS setting to the ON position.

1. Turn the engine switch (power switch) to the ON position (ON mode).
2. Navigate the following menus in the head unit: *Settings – General – Date & Time – Set date & time by GPS*.
3. Ensure the Set Date & Time by GPS function is set to the ON position.
