

TITLE: EV Models - Service Activation & Parts Registration

SERVICE INFORMATION

Subject

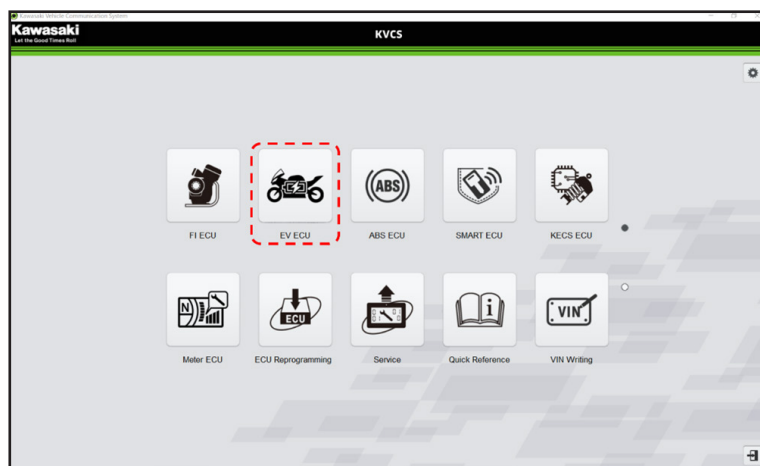

Like many other Kawasaki motorcycles, the Z e-1 (NR011A) and Ninja® e-1 (NX011A) models require service activation prior to customer delivery.

Dealer Action

- **Performing the Service Activation automatically starts the warranty period.**
- **Do not perform Service Activation until the day the motorcycle will be handed over to the customer.**
- Make sure the batteries are installed in the motorcycle prior to performing Service Activation.
- The motor drive battery pack serial numbers must be registered in KVCS during Service Activation operation.
- Refer to service bulletin MC23-13 for serial number location information.
- Refer to service bulletin MC23-11 for Service Activation information.

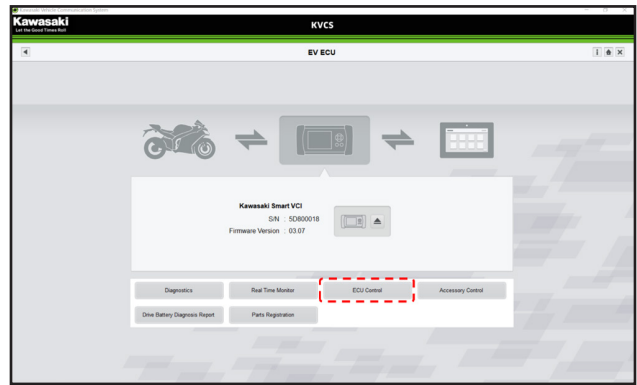

KVCS CONNECTOR

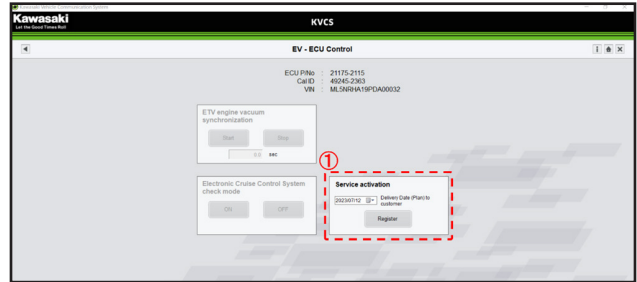

EV ECU BUTTON

Service Activation

- Click on the ECU Control Button on the EV ECU screen.

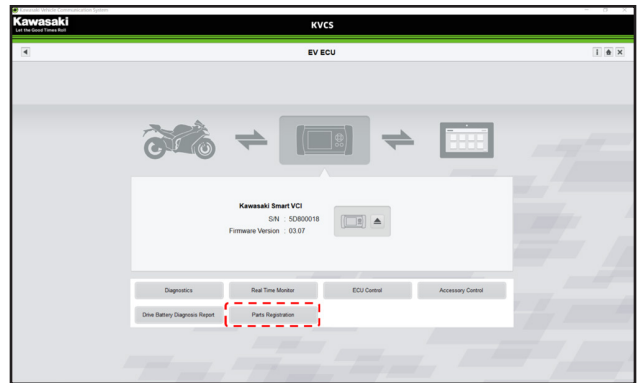

- Enter the Service Activation Date.

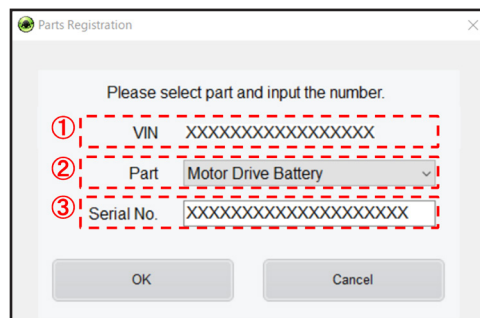

Parts Registration

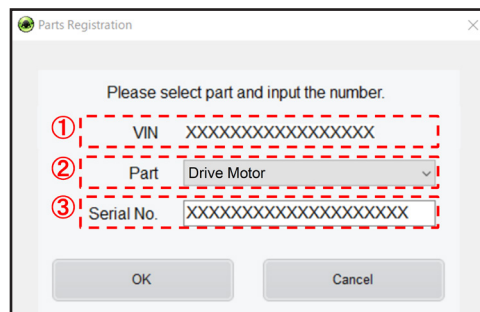

- Click on the Parts Registration Button on the EV ECU screen.

- The VIN will be automatically entered.
- Select Motor Drive Battery in the Part menu.
- Enter the serial number of the motor drive battery. (Refer to bulletin MC23-13).
- Click OK.

- Repeat for the Drive Motor.

Warranty Information

This bulletin is service information only, not warranty authorization.
