

TITLE: EV Models - Battery & Drive Motor Serial Numbers

SERVICE INFORMATION

Subject

If the battery pack(s) or drive motor are replaced on Ninja® e-1 (NX011A) and Z e-1 (NR011A) models they must be registered using KVCS as detailed in the KVCS instruction manual and MC23-11.

Header

The location of the serial numbers is as shown in the following images.

Serial Number Location – Battery Pack

The serial number is located on the box.

The serial number can also be obtained by scanning the QR code on the battery pack using a smart phone.

Serial Number Location – Battery Pack

The serial number is located on Bottom right side of the drive motor. The label for the drive motor is named "MOTOR-ELECTRIC".
