A. EXTENDED WARRANTY P10206 DESCRIPTION

Volvo Cars USA, LLC on behalf of Volvo Car Corporation, has decided to launch an Extended Warranty Program, P10206 + P10183 for vehicles equipped with I5T engines, exhibiting excessive engine oil consumption.

B. COVERAGE

Volvo Cars Extended Warranty is limited to 8 years from the date of delivery or 100,000 miles (whichever occurs first) covering parts replacement and labor to address excessive oil consumption.

NOTE: Eligibility for parts replacement under this Extended Warranty is dependent on the results of the retailer performed engine oil consumption test, which will be performed at no cost to the customer.

Quality Bulletin P10206

This Extended Warranty Program will provide out of pocket repair reimbursement for the cost of replacement parts and labor related to Excessive Engine Oil Consumption. Under the terms of this warranty, only an authorized Volvo retail facility can repair or replace defective parts under the terms of this Extended Warranty program when the following conditions are met:

1. Customers may seek reimbursement for repair costs associated with excessive engine oil consumption outside Volvo Cars New Cars Warranty. This offer is valid six (6) months from release (date of mailing) for out-of-pocket cost covered by Customer for repairs performed on the vehicle before eight (8) years from date of first use and less than 100,000 miles.
2. Customers may be granted parts replacement associated with engine oil consumption outside Volvo Cars New Cars Warranty. This offer is applicable for eight (8) years from the date of delivery or 100,000 miles, whichever comes first. Before completing any repairs, Retailers can verify vehicle eligibility for this Extended Warranty Program using Warranty Vehicle Inquiry, TIE or VIDA.

NOTE: RETAILER MUST CONFIRM VEHICLE ELGILBILITY PRIOR TO BEGINNING THE REPAIR FOR THIS EXTENDED WARRANTY.

Vehicle eligibility must be confirmed:

- Vehicle Inquiry – Warranty Vehicle Inquiry where the message “I5T Oil Consumption EXT WTY P10206” will appear for eligible vehicles. Eligibility can also be confirmed in TIE.
- **Only vehicles with this message are eligible for this Extended Warranty.**

If you have any questions concerning this Extended Warranty, please send them to recall@volvocars.com.

IMPORTANT NOTE: Direct marketing of this Warranty Enhancement is strictly prohibited! Non-compliance with this policy may result in a claim debit. This Extended Warranty is subject to all the terms and conditions set forth in the Volvo Cars Warranty Policy & Procedures Manual (WPPM). For example, improper maintenance, lack of required maintenance, the use of fluids other than those specified in the Warranty and Maintenance Guide, or repairs to vehicles which are currently or were previously titled as “scrap”, “salvage”, or “dismantled” may not be covered by the New Vehicle Limited Warranty or this Extended Warranty. This Extended Warranty only provides coverage for the originally equipped engine.

C. OIL CONSUMPTION TESTING AND DOCUMENTATION

Retailers will need to perform an engine oil consumption test to determine eligibility for part replacement.

- Procedures for the oil consumption test security tape application can be found in TIE QB packages.

IMPORTANT: All warranty claim submitted will require a signed Oil Consumption Test form attached to the claim when submitting for P10183.

D. PARTS REPLACEMENT

If the Engine Oil Consumption test determines excessive oil consumption, the engine needs to be inspected for internal damage. Only the piston rings (I5T) or complete engine assembly are to be replaced under the terms of this Extended Warranty Program. See Quality Bulletin P10183.

E. RETAILER SUPPORT

Address your questions to Volvo Recall support via email. Reference QB No. P10183 or P10186 and send to: recall@volvocars.com.

F. TECHNICIAN COMPETENCY REQUIREMENT

The technician competency requirement for this campaign repair is Quality/G0.

G. CLAIM SUBMISSION

Extended Warranty P10206 claims should be submitted using the LONG FORM application only.

Claim Type: P10206
Cause Code: 10
CSC Code: AZ
Main OP: 98580-2
Failed Part: 8889951 (Engine Oil)

<u>Operation Number</u>	<u>Times claimed</u>	<u>Repair Description</u>	<u>Labor Time</u>
98580-2	*First Claim	Oil Consumption test acc. To QB	.9
98580-2	*Second Claim	Oil Consumption test acc. To QB	.9

* Oil consumption test is open to claim two times to complete one test.

- First claim at initiation of test.
- Second claim to complete test.

* If the Engine Oil Consumption test has determined excessive oil consumption, please refer to QB P10183.

H. CUSTOMER QUESTIONS AND ANSWERS

Q1: What is the condition?

A1: In these vehicles, Volvo has received some reports where vehicles may exhibit excessive engine oil consumption. Although the Engine is covered by Volvo's New Vehicle Limited Warranty for 4 years or 50,000 miles (whichever occurs first), we at Volvo value the customers' ownership experience. Volvo is now extending the warranty coverage for parts replacement related to excessive oil consumption*.

*Eligibility for this warranty work is dependent on the results of a retailer performed engine oil consumption test.

Quality Bulletin P10206

Q2: What is the Extended Warranty Coverage?

A2: Volvo Cars Extended Warranty is limited to 8 years from the date of delivery or 100,000 miles (whichever occurs first) covering parts replacement and labor to address excessive engine oil consumption.

Q3: What is Volvo going to do?

A3: Owners of vehicles covered by this Extended Warranty Program will receive an owner notification letter via first class mail starting in late-January 2023. If the owner states he/she is experiencing the described condition, they will be advised to contact a local authorized Volvo retailer to have an engine oil consumption test performed to determine eligibility for parts replacement. If eligible, the Volvo retailer will perform parts replacement in accordance with the applicable Quality Bulletin under the terms of this Extended Warranty Program.

Q3a: What is involved in the oil consumption test?

A3a: An authorized Volvo retailer will change the oil in the vehicle to initiate the oil consumption test. The retailer will then seal the system and request that the owner return to the same retailer in 620 - 1,240 miles or if the low oil lamp (VEP4 engine only) is illuminated, whichever comes first. Upon return, the retailer will confirm how much oil the vehicle has consumed. If the quantity consumed is in excess of the amount permitted, the vehicle will be eligible for repair under the terms of this Extended Warranty Program.

Notes:

- If there is evidence of tampering with the sealed system, the test will be void.
- If the vehicle has oil leaks when the test is requested, they will need to be addressed before the oil consumption test can be initiated. The cost to cover these repairs are not covered under the terms of this Extended Warranty Program.

Q3b: Is oil consumption normal?

A3b: As noted in the owner's manual, it is normal for the engine to consume engine oil during normal operation. Oil is used to continually lubricate and cool internal engine components during operation. Trace amounts of oil are present in the combustion chamber during the combustion process. Therefore, a small amount of oil is consumed during normal operation. By performing an oil consumption test, an authorized Volvo retailer will be able to determine whether a vehicle is eligible for repair under this Extended Warranty Program for an excessive engine oil consumption issue.

Q4: Which vehicles are covered by this Extended Warranty Program?

A4: There are approximately 78,186 vehicles covered by this Extended Warranty Program.

*XC90	A2, 10	Engine Serial No. < 1501327	2016

*Vehicles after engine Serial No. 1501327 already have updated piston/rings.

Q5: What should I do if I believe my vehicle has excessive engine oil consumption?

A5: If the Customer believes the vehicle has excessive engine oil consumption, please contact any authorized Volvo retailer to have an Engine Oil Consumption test performed. If the vehicle is found to be consuming excessive oil, it will be eligible for parts replacement under the terms of this extended warranty program.

Q5a: What if a retailer performs the engine oil consumption test and the vehicle does not qualify for warranty work?

A5a: Any authorized Volvo retailer will perform an engine oil consumption test at no charge to determine if the vehicle is eligible for repair under this Extended Warranty Program. The test will be performed free of charge regardless of the results.

Q5b: If the vehicle passes the oil consumption test how often can I have the vehicle re-checked?

A5b: If the vehicle does not qualify for repair after the oil consumption test is performed, under the terms of this Extended Warranty Program, an additional oil consumption test can be requested.

Quality Bulletin P10206

Q5c: Will Volvo pay for my oil change?

A5c: If the vehicle is within the terms of this extended warranty program it will require an oil change to complete the oil consumption test. Volvo will provide the oil change free of charge.

Q6: What if an owner has NOT experienced this condition but would like to have the parts replaced?

A6: This Extended Warranty Program only applies to vehicles that have exhibited the condition described under the terms of this Extended Warranty Program.

Q7: How long will the warranty work take?

A7: If the condition is present on the vehicle, the warranty work will take approximately 2 days to complete, however, due to service scheduling a Volvo retailer may require the vehicle for a longer period.

Q8: What if a customer has previously paid for repairs on their vehicle?

A8: Owners that have previously paid for repairs to address excessive engine oil consumption should refer to the owner letter for reimbursement consideration instructions.

Q9: The Oil consumption test was initiated, however when the customer returned to the retailer they were out of the specified range, can the customer have another test performed?

A9: No, it is up to the customer to monitor the driving distance and make sure to book a follow up visit to meet the conditions in this test. If the retailer cannot meet the customers need the retailer needs to absorb the cost for a new test.

Q10: Do I need to return to the same retailer to have the results of the consumption test confirmed?

A10: Yes, we ask that the Customer return to the same retailer to have the second portion of your test completed.

Q11: What if the oil consumption test was started prior to the release of the Extended Warranty?

A11: If the oil consumption test was started prior to the release of the extended warranty. The test will be accepted. Please add the following statement to piston ring/engine repair claim text, "Oil consumption test was started prior to release date of extended warranty."

Q12: The Oil consumption test initiated, however when the customer returned to the retailer their vehicle was beyond 8 years 100,000 miles. Is the vehicle still eligible for the piston ring repair?

A12: Yes, since the oil consumption test was started prior to vehicle going beyond the 8/100,000 parameter, the vehicle is still eligible for the piston ring repair.

Q13: My vehicle currently has engine damage and requires repair before I can have the test performed. Will Volvo cover the cost?

A13: Repair coverage under this program is dependent on the result of the retailer performed engine oil consumption test. At this time, it has not been determined the vehicles engine damage is a result of excessive engine oil consumption. If the vehicle can be repaired so the engine oil consumption test can be performed, the cost to cover these repairs are not covered under the terms of this Extended Warranty Program. Following any necessary repairs, the retailer will complete the engine oil consumption test. If it is determined that the vehicle has excessive engine oil consumption due to the conditions described in the Extended Warranty Program, repair will be performed at no charge to the Customer. Cost for repair outside the conditions in the Extended Warranty will not be reimbursable.

Q14: Can I have a rental vehicle until the repair can be performed?

A14: A confirmed diagnosis of an excessive oil consumption issue by a Volvo retailer does not pose any safety concerns. Therefore, you may continue to drive your vehicle until the engine oil consumption issue can be addressed. Please be sure to check the oil level frequently as recommended in your vehicle's Owner's Manual and add engine oil as needed.

Q15: Are there any special circumstances when I can have a rental vehicle?

A15: Any rental considerations are to be reviewed by a regional representative prior to authorization. If approved, on a limited case by case basis Volvo will provide a rental vehicle free of charge until the repair can be performed.

Q16: What are the warranty terms for a vehicle that was repaired per the extended warranty program?

A16: The warranty coverage for this Extended Warranty Program is the remainder of the Extended Warranty or 90 days whichever is greater.

Q17: What if an owner has additional questions or concerns?

A17: Owners with questions or concerns are asked to please contact Volvo Customer Care by phone at 1-800-458-1552. 24 hours a day, 7 days a week. Owners may also contact Volvo Customer Care by going to <http://volvocars.us/support>.
