

What's In This Update?

Ford Power-Up 7.0.3

Your vehicle has been updated with following:
Customer Satisfaction Program 23B57

We updated the Battery Energy Control Module (BECM) software strategy to adjust the way your vehicle performs if a voltage deviation is identified within the high voltage battery. This completes customer satisfaction program 23B57. There is nothing more you need to do to complete this customer satisfaction program.

SYNC Navigation

SYNC navigation has been updated to anticipate conditions along your route and schedule battery cooling to meet the unique demands of your trip.

Ford Power-Up delivers software updates that are designed to help make your Ford F-150® Lightning® truck better over time.
