Condition	Some customers may comment that the minor/auxiliary tailgate does not open. The major/main tailgate will open with no issues.
Cause	The cause of this concern could be a device, added to the vehicle, that inhibits the minor tailgate from opening when it detects a trailer hitch installed into the receiver, example shown below.

**Correction:**

These devices are not factory installed and before any in depth diagnostics are performed, they should be removed to see if the issue is resolved.

**Warranty Information**

Issues caused by these aftermarket devices would not be covered under warranty.
