

## **Service Bulletin**

Bulletin No.: 24-NA-001

Date: February, 2024

# **TECHNICAL**

Subject: Headlamps, Daytime Running Lamps, and/or Taillamps Flash Off/On

This Service Bulletin replaces PIC6530. Please discard PIC6530.

Brand:	Model:	Model Year:		Build Date:		Engine:	Transmission:
		from	to	from	to	Engine.	mansinission.
Chevrolet	Trax	2024	2024	SOP	November 22, 2023	_	_

Involved Region or Country	North America	
Additional Options (RPOs)	Equipped with RPO IOR	
Condition	Some customers may comment that while driving, the exterior lights (headlamps, DRLs, and/or tail lamps) constantly flicker or flash off/on.	
Cause	The cause of the condition may be the ambient light sensor.	
Correction	Confirm the issue by turning off the auto headlamp feature and the flashing should stop. If so, then replace the ambient light sensor. Refer to Ambient Light and Security Indicator Sensor Replacement in SI.	

#### **Service Procedure**

Important: Service agents must comply with all International, Federal, State, Provincial, and/or Local laws applicable to the activities it performs under this bulletin, including but not limited to handling, deploying, preparing, classifying, packaging, marking, labeling, and shipping dangerous goods. In the event of a conflict between the procedures set forth in this bulletin and the laws that apply to your dealership, you must follow those applicable laws.

For vehicles repaired under the Bumper-to-Bumper coverage (Canada Base Warranty coverage), use the following labor operation. Reference the Applicable Warranties section of Investigate Vehicle History (IVH) for coverage information.

Labor Operation	Description	Labor Time
1086788*	Ambient Light Sensor Replacement	1.1 hrs
*This is a unique Labor Operation for bulletin use only.		

Version	1
Modified	Released January 26, 2024

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
