

SSM 52270 2024 Nautilus - Liftgate Illuminated Lincoln Lettering

2024 Nautilus vehicles are equipped with a rear deck lid lamp with Lincoln lettering. On Black Label trim level vehicles only, this Lincoln lettering will illuminate and all other trim levels this Lincoln lettering will not illuminate. This feature becomes illuminated on Black Label trim vehicles when the exterior lamps are on with the vehicle is in park. This feature shuts off and the letters will no longer illuminate when the vehicle comes out of park. This is normal operation and no repair attempts should be performed for this condition.
