Maintenance Monitor – Stage 2 Fuel Filter Reset Malfunction

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

Product Affected

- X15 CM2450 X142B

Issue Summary

Symptom:

- Low success rate when trying to reset the Stage 2 Fuel Filter Maintenance Monitor with the brake pedal.

Root Cause:

- Using the brake pedal to reset the Stage 2 Fuel Filter Maintenance Monitor is highly sensitive to the amount of time the brake pedal is depressed.

Resolution

- To reset the Stage 2 Fuel Filter Maintenance Monitor using the brake pedal, the brake pedal **must** be depressed for 1 second at minimum and released for 1 second at minimum within the 10 second window.
- If the brake pedal reset is still **not** successful, INSITE™ electronic service tool **must** be used to reset the Stage 2 Fuel Filter Maintenance Monitor
