

<b>TSB #:</b>	TSB-90012401	<b>Release Date:</b>	2/13/2024
<b>Main Group:</b>	90 - Labels		
<b>Subject:</b>	VECI Emission Label Retrofit		
<b>Vehicle:</b>	FM29 OCEAN	<b>Production Range:</b>	9/29/2022 - 12/13/2023
<b>Model Year(s):</b>	2023	<b>Region(s):</b>	United States & Canada
<b>Mobile Service:</b>	YES		

**SERVICE ACTION:** SA-2401-US/CN **Install Corrected Emissions Label**

Perform the procedure outlined in this TSB on all affected vehicles before customer delivery. In the event the customer already has possession of a vehicle affected by this action, please perform the procedure the next time the vehicle is scheduled for a Service. The Vehicle Emission Control Information (VECI) label on Fisker Ocean vehicle in the United States and Canada must be checked. If it has an incorrect label, it must be replaced according to the instructions outlined in this document.

**Affected VIN Range:** VCF1EBU28PG001699 (5/2023) – VCF1EBU24PG011729 (12/2023)  
**Vehicles:** Always confirm the VIN has an open campaign setup in the Work Order system.

- Model: Fisker Ocean
- Trims: Ocean One, Extreme, Ultra and Sport
- Model Year: 2023
- Region: United States and Canada
- Total Vehicles Impacted = 7064 257 CN and 6807 USA

**Situation:**

The Vehicle Emission Control Information (VECI) label on Fisker Ocean vehicle in the United States and Canada must be checked. If it has an incorrect label, it must be replaced according to the instructions outlined in this document.

- Some Fisker Ocean vehicles may have an invalid VECI label which has the wrong group assignment, installed under the hood.

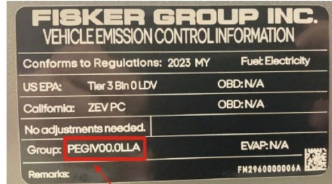

**Correction:**

- The VECI label must be checked and replaced if necessary.
1. Open the hood. Refer to Fisker Ocean Service Manual V2.0: Body Closures > Hood > Open Hood.
  2. Locate the VECI label on the underside of the hood (front section).

- Inspect the label by checking the **Group**. If the second letter is "E", it is the incorrect label and must be replaced.

**Wrong Group: PEGIV00.0LLA**

**Correct Group: PFGIV00.0LLA**

- Clean the surface of the old label with a non-abrasive cleaning agent (i.e., Windex). Make sure the surface is clean and dry.
- Carefully apply the new label directly over the old label. Try to align the new label so it covers the old label completely.
- Close and secure the hood.  
Refer to Fisker Ocean Service Manual V2.0: Body Closures > Hood > Close Hood.

**Parts Info:**

Part Number	Description	Quantity
FM2960000006A	EMISSION_LABEL_US_CAN_AWD	1

**Warranty Info:**
