SSM 52310   2024 Nautilus/F-150 - Keyless Entry Keypad Code Card Missing

Some 2024 Nautilus and F-150 vehicles may incorrectly list the keyless entry keypad code card on the loose item checklist. 2024 Nautilus and F-150 vehicles in North America do not include keyless entry keypad code cards. Clients are now able to retrieve the vehicle's keyless entry keypad master access code in vehicle by following the instructions in the master access code card (available only on F-150) or in the Owner's Manual > Keyless Entry Keypad Master Access Code. This process requires the use of two programmed intelligent access keys.
