U.S. Population of affected vehicles: 633,445. Affected vehicles are identified in OASIS.

Note: Monitor OASIS before opening an RO and/or beginning a repair. Parts purchased for an FSA can be returned for credit if required. See the EXCESS STOCK RETURN details in Attachment II for more information.

Note: The following Special Service Message (SSM) includes the same software calibration update of the GWM as this Recall:

- SSM 50974

Customer Satisfaction Program 22N15 will be closed automatically if repairs for this SSM are claimed. This SSM have been removed from OASIS upon the release of Customer Satisfaction Program 22N15.

REASON FOR PROVIDING A NO-COST, ONE-TIME REPAIR

In the affected vehicles, the GWM may not properly communicate with Inspection and Maintenance (I/M) emissions equipment due to a GWM software concern. This concern may cause the vehicle to fail an I/M test in a state or region that requires annual I/M testing for vehicle registration.

SERVICE ACTION

If an affected vehicle exhibits this condition, dealers are to reprogram the GWM to the latest software level via a coordinated module reprogramming. This service must be performed at no charge to the vehicle owner.

To assist vehicle owners to have this repair completed when software is available, dealers should:

- Arrange for a mobile repair at the owner's location, or:
- Arrange to pick up the owner's vehicle and drive it to the dealership for repairs.
 - Re-deliver the owner's vehicle after repairs have been completed.
- Pick-up and delivery, and mobile service should be made available for all customers. Refer to the Rental and Claiming sections for further details.

OVER-THE-AIR (OTA) UPDATES (FORD POWER-UP / LINCOLN ENHANCE):

- Ford deployed an Over-The-Air (OTA) update to remedy this issue on August 18, 2023. That OTA update applied to the Telematics Control Unit (TCU) and provided an equivalent remedy to the FDRS-based GWM software update described above.
- Customers who received the OTA update do not require the GWM software update.

OWNER NOTIFICATION MAILING SCHEDULE

For vehicle customers with NO Over-The-Air (OTA) Software Update capability; pending Agency approval, owner letters are expected to be mailed during the week of March 18, 2024.

For vehicle customers who did receive Over-The-Air (OTA) Software Update; pending Agency approval, owner letters are expected to be mailed during the week of March 18, 2024. Owners will be notified that their vehicle received an OTA update for this issue and given the option to request a refund for owner-paid GWM reprogramming.
