## Product Change Notice - Tiffin hydraulic power units

Dear Valued Customer:

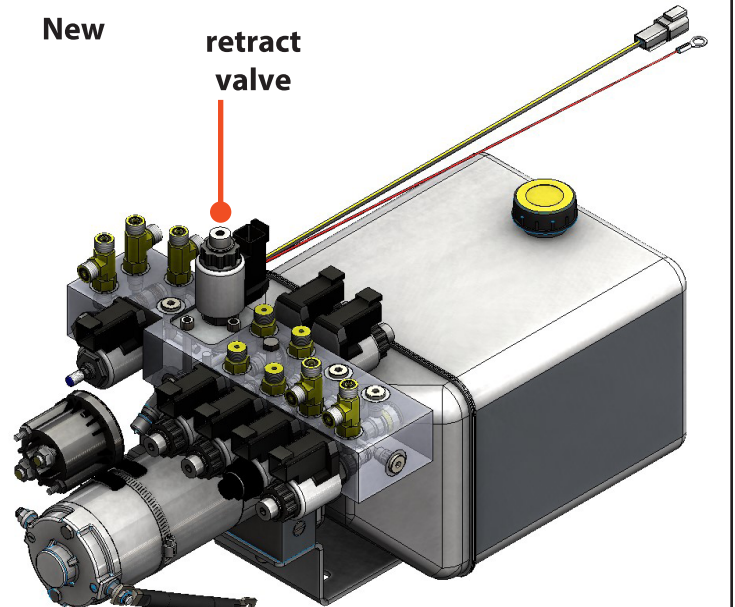

Please be advised, the design on the Tiffin hydraulic power unit has changed to include the retract valve mounted externally in the manifold in a vertical orientation.

For installation, the OEM will need to make sure the new retract valve is in the open position during the flush and fill purge process. There is no price change and no part number change. The change began on a running basis, starting 2-29-24

**Current**

**New**

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

**Tyler Nine**
