

2024 MY Nautilus
(AOS- PHX)
Software Update 9.2.0

WHAT'S IN THIS UPDATE?

Software Update 9.2.0

Connectivity, Audio, and Chimes

Connectivity

- Enjoy a smoother connected setup with enhanced stability for all your in-car connections, including USB charging.

Audio

- A more consistent listening experience with a refined audio system.

Reverse Chime Alert

- Less frequent reverse chime alerts provide a more peaceful driving experience.

Speedometer

- Your dashboard speedometer will display speeds up to 120 MPH. Remember to maintain a safe speed and consider posted speed limits and prevailing road conditions. Failure to do so could result in accident or injury

Software updates are designed to help make your vehicle better over time.

- Replaced the Display Brightness Slider with +/- buttons to make it easier to use on your drive.
- Combined the USB and Bluetooth Media sources into a single app for easy access.
- Added new Onboard Scales, Zone Lighting, and Smart Hitch apps for eligible vehicles.
- Moved the Sketch app into the “Entertainment” page so it’s easier to find.
- Updated the icons on the top bar to make them easier to see.
- Added a phone battery icon on phone app screens.

Public Charging

- The Public Charging application, previously known as Charge Assist, can be located in your application drawer, where other apps live.
- You can now start and pay for charging on the BlueOval™ Charge Network without requiring a smartphone. Filter by charge speed and network while staying informed about real-time information about new chargers, such as availability and those under repair.
- A new map view has been added, allowing you to visibly search for nearby chargers and quickly see what's available.
