

2023 MY EXPEDITION
(SYNC)
SU 6.14.0

Software Update 6.14.0

Software updates are designed to help make your vehicle better over time.

1

Your vehicle has been updated with following:

Enhancements to Digital Infotainment

We've listened to your feedback and we're making changes to your SYNC system so that it's simpler and easier to use on the go. Please continue to send your feedback and we will continue to work on improvements. Changes we've made in this update:

- Replaced the Display Brightness Slider with +/- buttons to make it easier to use on your drive.
- Replaced the in-camera view pop-up with buttons to enable you to modify the camera view easily.
- Combined the USB and Bluetooth Media sources into a single app for easy access.
- Added new Onboard Scales, Zone Lighting, and Smart Hitch apps for eligible vehicles.
- Moved the Sketch app into the "Entertainment" page so it's easier to find.
- Updated the icons on the top bar to make them easier to see.
- Added a phone battery icon on phone app screens.
- Enhanced the layout on the seat controls screen for enhanced functionality.

Trailer Blind Spot

- If the Trailer Blind Spot feature is available and a trailer is connected, you'll now see a more descriptive message as well as more options to choose from
