

May 28, 2024

ATTENTION: ALL DEALER PRINCIPALS

Kia America, Inc. is conducting a Voluntary Service Campaign on certain 2022-2024 MY EV6 vehicles, manufactured from November 17, 2021 through December 27, 2023.

While charging using a 240-V AC ("Level 2") charger, the subject vehicles may experience an interrupted charging session or a lower charging speed due to a degraded electrical connection from exposure to a damaged charging cable connector. To improve charging speeds and reduce interrupted charging sessions due to this condition, Kia is conducting this Voluntary Service Campaign to have the latest VCMS ECU software installed on the vehicle.

Dealers will update the VCMS ECU with improved software. This campaign will be performed free of charge at no cost to the customer.

Your Service Manager was sent a copy of the owner notification letter and a Q&A Guide both of which describe the issue and information on how to access the list of affected vehicles. Kia will start mailing notices to the affected vehicle owners beginning on **June 6, 2024**.

What Should You Do?

Please make personnel in your dealership familiar with the details of this Voluntary Service Campaign so they may respond to customer inquiries and requests appropriately.

LEGAL PRIVACY LIABILITY NOTICE: Pursuant to the terms of the Dealer Sales and Service Agreement and the Gramm-Leach-Bliley federal consumer privacy act, you are required to keep confidential any and all information and documents provided to you by Kia America, Inc. or generated by you in the conduct of carrying out work under that Agreement regarding Kia vehicle purchasers and owners, including but not limited to warranty claim information. Kia dealers may use such owner information for the sole purpose of conducting and performing this voluntary service campaign, and for no other purpose.

If you have any questions, please contact your Kia District Parts & Service Manager.

Sincerely,

Kia Service Department
