Subject

TX-8 Required Tools

Whats New Abstract

Information Only

New tools are required to support PACCAR TX-8 / ZF transmissions.

Part number **E01-1012** (Adapter, Jack TX-8) is currently available to order.

Part numbers **E01-1014** (Front Seal Installer) and **E01-1015** (Rear Seal Installer) are not currently available to order but bulletin will be updated once they

become available.

Condition

Required tools are available to support the PACCAR TX-8 / ZF transmissions.

Chassis Affected

Affects all Model Year 2021-present New Medium Duty chassis equipped with a PACCAR TX-8 transmission.

Action

Information Only

1. Managed Dealer Inventory (MDI) analysts will send notifications in MDI system to load the following tool:
 - **E01-1012** - (Adapter, Jack TX-8)
2. MDI will use a MSL (Mandatory Stocking List) approach for these required tools.
3. If dealer is not on auto acceptance, dealer will need to accept the MDI suggestion in order for the tool to ship.
4. Reminders will be sent to dealers that do not put the parts (tools) on order.

 NOTE
Part numbers E01-1014 (Front Seal Installer) and E01-1015 (Rear Seal Installer) are not currently available to order but bulletin will be updated once they become available

Parts

Part is available from PACCAR Parts.

The following is a Level 1 Required tool:

Quantity	Part Number	Description	Image

1	E01-1012 *	Adapter, Jack TX-8	
* Dealers need to acquire the above tool to perform repairs on PACCAR TX-8 / ZF transmissions.			

Background

This bulletin will be updated as other tools become available to support the TX-8 / ZF transmission.

 NOTE
Part numbers E01-1014 (Front Seal Installer) and E01-1015 (Rear Seal Installer) are not currently available to order but bulletin will be updated once they become available

Procedure

Please note that all required tools will be on a Mandatory Stocking List (MSL) and will ship automatically if your dealer is on MDI auto-acceptance.

If your dealer is not currently participating in MDI auto-acceptance you will need to accept the MDI suggestion in order for the tool(s) to ship.
