WINDOW GLASS WARRANTY INFORMATION

This bulletin has been amended. See **AMENDMENT HISTORY** on the last page.
Please discard previous versions of this bulletin.

APPLIED VEHICLES: All Nissan vehicles

HINT: For additional details on windshield glass warranty, refer to NTB09-081.

SERVICE INFORMATION

Nissan North America (NNA) is not responsible for damage to vehicle window glass that is a result of objects impacting, striking or scratching the glass, including damage caused by the installation of aftermarket window tinting. Damage of this type is not warrantable. Also, foreign material on the window glass surface is not a warrantable condition.

Nissan is responsible for defects in materials or workmanship – issues such as bubbles, blisters, glass adhesion and cracks that are due to improper installation or damage to the glass during vehicle assembly.

Before damaged window glass is replaced under warranty, it should be carefully inspected to confirm:

- The damage is not caused by a strike to the window or a scratch caused by other means, such as the installation of aftermarket window tinting.
- The issue is not foreign material stuck on the glass.
- The damage is a manufacturing issue.

HINT:

- Foreign material can be removed by using clean #0000 steel wool.
- Refer to NTB13-028 for additional information on cleaning foreign material.

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.

Window Glass Warranty / Part Return Process Reminder

- Dealers are required to take at least two (2) digital photographs that clearly identify the alleged glass defect prior to removing the glass from the vehicle.
- Digital photographs must be kept in dealer records.
- Dealers are required to mark returned glass that has “visible issues” using masking tape or other appropriate means (grease pen, etc.) to identify and highlight the area damaged. **Claim may be charged back if the part is not marked properly.**
- Window glass damage or issues caused by strikes, scratches, foreign material, or the installation of aftermarket window tinting will be charged back.
- The new glass warranty form must be completed and digital photograph files attached through ASIST for:
 1. Over DCAL Warranty Call Center pre-authorization
 2. Glass Part Return requests
- **The claim will be subject to a claim debit if the part is not marked properly and/or missing the required digital photographs (via ASIST) to support identification of a warrantable defect.**

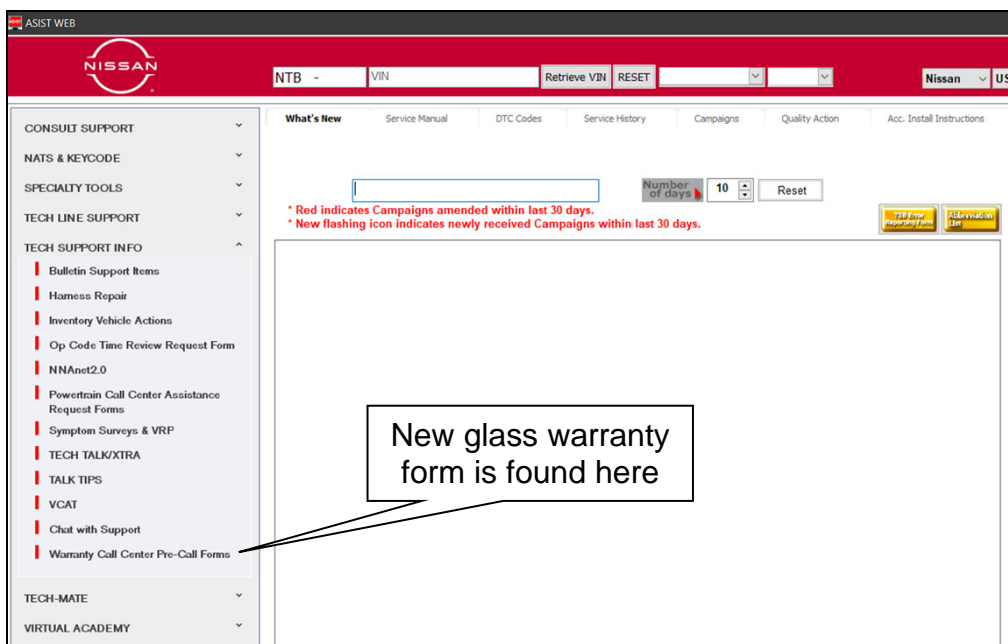

Figure 1

HINT:

- To best prepare for glass pre-authorization or glass part return request, please complete and send the “Glass Warranty Form” through ASIST before calling. By submitting this form before the required call, dealer staff can often make it a one-call process for glass replacement confirmation and claim authorization.
- Refer to the Glass Part Return section of the Nissan Assurance Products Reference Manual (APRM) for complete glass return details.

AMENDMENT HISTORY

PUBLISHED DATE	REFERENCE	DESCRIPTION
February 21, 2017	NTB17-019	Original bulletin published
November 29, 2017	NTB17-019a	Publication date updated to include the latest models and model years, and warranty information on page 2 revised
April 9, 2018	NTB17-019b	Publication date updated to include the latest models and model years
May 15, 2019	NTB17-019c	Publication date updated to include the latest models and model years, and APRM reference on page 2 revised
December 17, 2020	NTB17-019d	Publication date updated to include the latest models and model years
November 18, 2021	NTB17-019E	Publication date updated to include the latest models and model years, and APRM reference on page 2 revised
February 17, 2022	NTB17-019F	Publication date updated to include the latest models and model years
