A7 e quattro	2021 - 2022		

Condition

REVISION HISTORY		
Revision	Date	Purpose
12	-	Revised Header (Add model years) Revised <i>Warranty</i> (Corrected SRT)
11	03/13/2024	Revised <i>Warranty</i> (Updated claim types)
10	01/30/2024	Revised Header (Add models and model years) Revised <i>Warranty</i> (Updated Labor Ops)

Customer states:

- A rattle is heard from the headliner area.

Technical Service Bulletin

Technical Background

The noises can be caused by movement in the clips that attach the headliner to the sunroof frame or movement between components of the sunroof frame.

Production Solution

Felt material has been added to points of contact in production.

Service

1. Test drive the vehicle (preferably with the customer) and duplicate the noise. Applying pressure to areas of the headliner around the perimeter of the sunroof will eliminate the noise, confirming the root cause.
2. Remove the headliner. The clips shown in the illustration will need webbing adhesive tape (D 004350A2) (Figure 1).

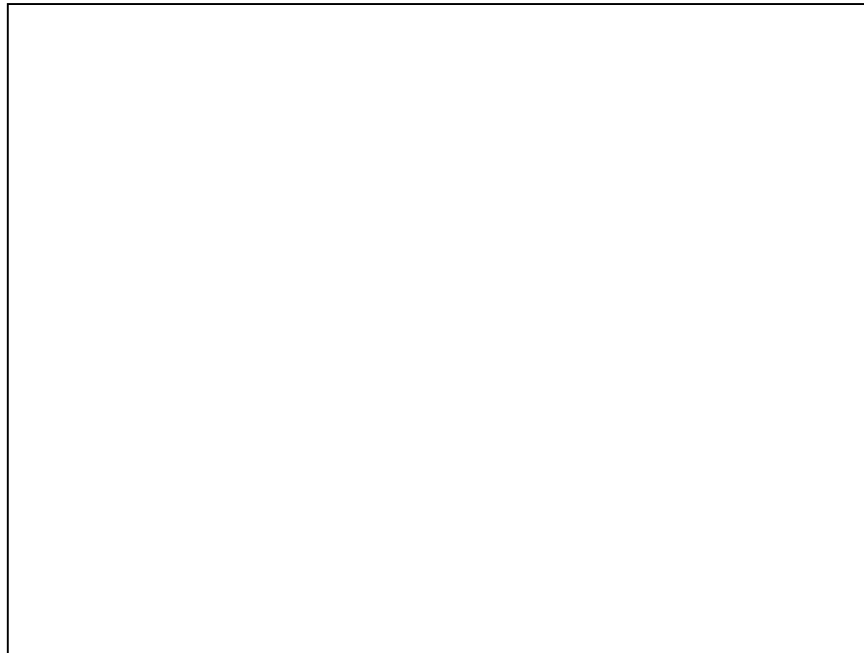

Figure 1. Location of the headliner to sunroof frame clips.

Technical Service Bulletin

3. Remove the clips and apply the webbing adhesive tape underneath them, as shown (Figure 2).

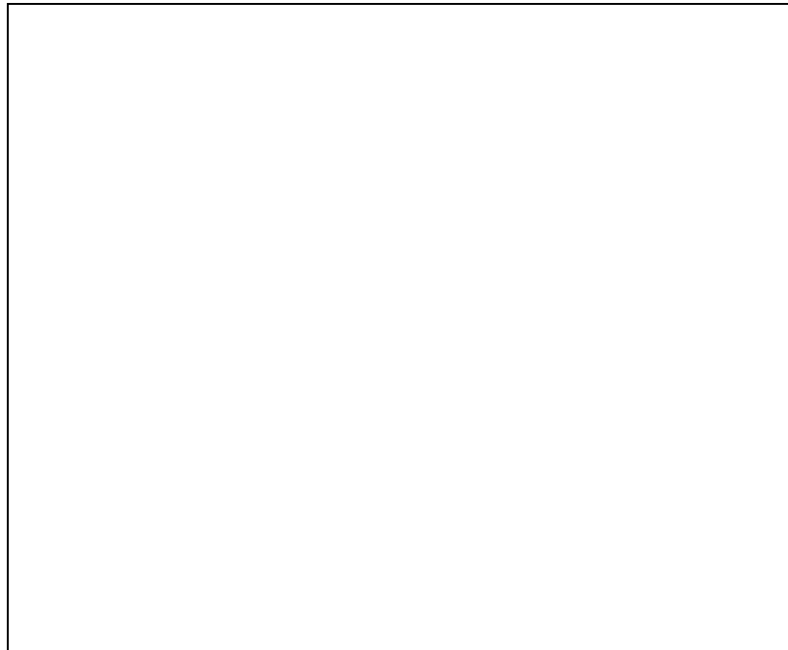

Figure 2. Location of the webbing adhesive tape application.

4. Reinstall the clips (Figure 3).

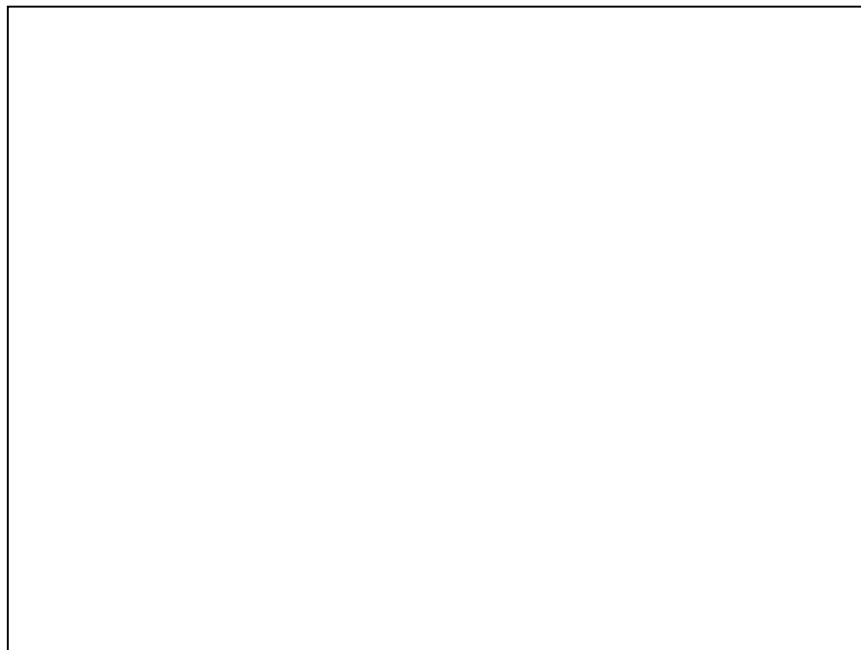

Figure 3. Clips reinstalled.

Technical Service Bulletin

5. Apply webbing adhesive tape to the sunroof frame lip at each clipping point (Figure 4).

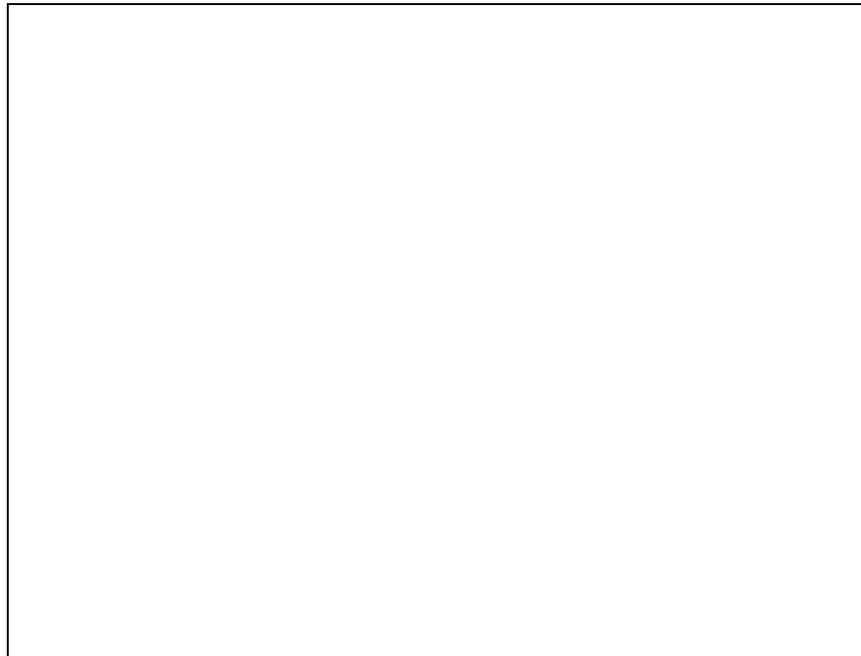

Figure 4. Application area on sunroof frame area of clip engagement.

6. There are two additional points of contact at the front sunroof frame plates that could be a source for noise (Figure 5).

Figure 5. Areas of the sunroof frame to be isolated with webbing adhesive tape.

Technical Service Bulletin

- 7. Apply webbing adhesive tape between the sections of the sunroof frame plates on both the right and left sides as shown in the illustration (Figure 6).

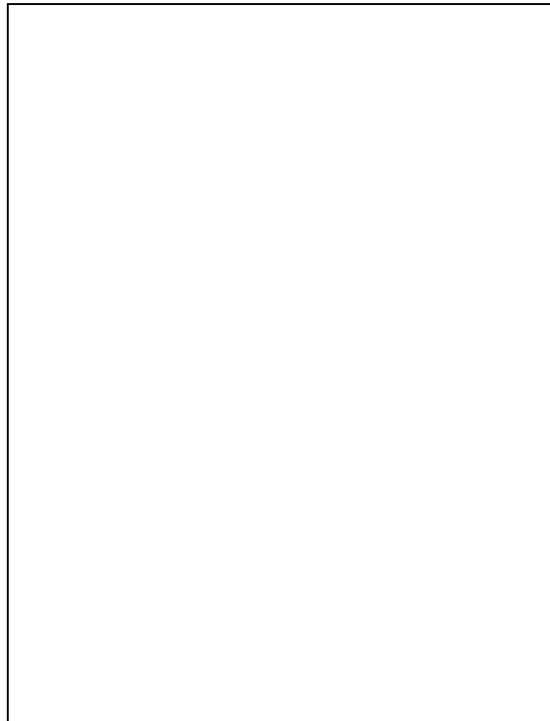

Figure 6. Webbing adhesive tape applied between the side and front sunroof frame plates.

- 8. Perform a final test drive to confirm that the noise has been eliminated.

Warranty

Claim Type:	<ul style="list-style-type: none"> • 110 Up to 48 Months/50,000 Miles. • If the vehicle is outside of any warranty, this Technical Service Bulletin is informational only.
