

2023-2024 Corsair
(Enhanced Central Gateway- ECG)
10.0.0

Software Update - 10.0.0

Software updates are designed to help make your vehicle better over time.

1

Improved Battery Management

"• We've updated your vehicle to better manage the 12V battery when your car is off, reducing unnecessary power usage. This improves your battery's performance, giving you more reliability and peace of mind.

• Your vehicle now shows more accurate software update information, making your drive worry-free."
