

GPOP - Issue Review System

Part Number: 68428545A\$, 68472790A\$, 68607800A\$

Part Description: FPDM

Issue Please DO NOT immediately replace the display, Please follow the following steps. 1.
Description: Perform a vehicle battery disconnect to reset the display. Then check the Display function. If Display is still black, replace the display. 2. If screen is recovered, perform a radio Factory reset through the Display. Go to Vehicle menu > Settings > Reset > Factory reset. 3. Then Perform 2 full Ignition Key cycles and check display function. Turn the vehicle off, then open the door and close the door. Then wait until the cluster goes completely off before turning on the car again. 4. If still having screen issues, replace the Display.
