ATTENTION: ALL DEALER PRINCIPALS

Kia is extending the New Vehicle Limited Warranty coverage, to all owners, for repairs related to the horn assembly in 2021-2024 MY Seltos vehicles from 5 years / 60,000 miles to 10 years / 120,000 miles, whichever comes first, starting from the date the vehicle was first put into service. This warranty extension is to address the horn sound malfunction condition.

If, at any time during the extended warranty coverage, the subject vehicle's horn does not emit any sound or emits an unusual or different horn sound than normal, Kia authorizes its dealers to diagnose the cause free of charge at no cost to the customer.

If the above symptoms are diagnosed as being due to corrosion inside the electric horn and/or carbonization of the contact point, Kia authorizes its dealers to replace the horn assembly free of charge at no cost to the customer under this warranty extension.

The Technical Service Bulletin (TSB) that provides vehicle repair procedures will be posted on the Kia Global Information System (KGIS) at www.kiatechinfo.com, and the Warranty Bulletin describing this warranty extension will be posted on kdealer.com on or around **July 9, 2024**.

NOTE: Until the TSB for this warranty extension becomes available, dealers are to perform the diagnosis and repair as necessary on any affected vehicles under Kia's factory warranties. If a subject vehicle falls outside of its warranty (either by time or mileage), dealers are to perform the diagnosis and repair under goodwill to ensure that the diagnosis and repair of the symptoms covered under this warranty extension program are free of charge to the customer.

OWNER NOTIFICATION

Kia will notify owners advising them of the Warranty Extension Program beginning on **July 11, 2024**.
