

### Current Phase Timing and Vehicle Eligibility (Updated: 06/13/2024)

The table below describes the phases currently planned for the Second Key Delivery Program and the estimated timing of announcement. This table will be updated during each phase launch and as more details become available.

Phase	Announcement Timing	# of Vehicles
Phase 1	<i>Remedy Available</i>	~52,000
Phase 2	<i>Remedy Available</i>	~150,000
Phase 3	<i>Remedy Available</i>	~60,000
Phase 4	<i>Remedy Available</i>	~105,000
Phase 5	<i>Remedy Available</i>	~142,000
Phase 6	<i>Remedy Available</i>	~113,000
Phase 7	August 2024	TBD
Phase 8	October 2024	TBD

\*Timing subject to change

Dealers can identify which models were produced with one (1) Smart Key and which phase a vehicle belongs to using the chart below.

**Example:** Customer has a **4Runner** produced in **December 2022**. Confirm the vehicle's production date against the Start and End Production Dates in the table below to confirm if it was produced with one (1) Smart Key. If so, **check the color of the box** corresponding to the model and production month in the table below, and **compare to the Phase summary table to the left**. The box for 4Runner produced in December has a dark green color, meaning it is part of Phase 1, which is estimated to be announced in June 2023.
