

## New Espar HS3 Heater and Extreme Insulation

Communication Type: Product News

Date: 7/19/2024

Please read below for three new product updates now available - the Espar HS3 heater (Cascadia & 57X), Extreme Insulation (Cascadia Sleeper) and Premium Insulation (Cascadia Day Cab)

### **New Espar HS3 Heater:**

Beginning with builds July 15<sup>th</sup>, 2024, and after, the Espar D5 heater, now included with the Dual Parked HVAC System, will be discontinued and replaced with the Espar HS3 heater.

The Espar HS3 is the next generation of hydronic heaters offering greater heating capacity, improved durability, reliability, and overall better performance to improve uptime and driver comfort. It features reduced maintenance with a new brushless motor, a faster start up and less power consumption, and improved acoustics by reducing noise during operation. The HS3 heater will have the same operation and controls as the D5 heater.

Current Data Codes:	Replaced by:
689-096: DUAL PARKED BATTERY POWERED HVAC SYSTEM WITH ESPAR D5	689-128: DUAL PARKED BATTERY POWERED HVAC SYSTEM WITH ESPAR HS3
689-100: DUAL PARKED BATTERY POWERED HVAC SYSTEM WITH CENTER MOUNT BACKWALL CONDENSER WITH ESPAR D5	689-129: DUAL PARKED BATTERY POWERED HVAC SYSTEM WITH CENTER MOUNT BACKWALL CONDENSER WITH ESPAR HS3

Data Codes available now in SpecPro (c/o 7/15/24)

See FAB 313 (<https://daimler.highspot.com/items/669aba0ef4a29cc2db69b4b2>) for more information.

### **New Extreme Insulation (Cascadia Sleeper)**

Beginning with builds August 12<sup>th</sup>, 2024, and after, Extreme Insulation will be available as an option with Cascadia sleeper models. Additional insulation on the front wall, flooring, roof, and along the side walls delivers improved HVAC efficiency and quietness. This insulation maximizes driver comfort for drivers who operate in extreme hot or cold environments.

Data Codes:

739-028: EXTREME CLIMATE THERMAL CAB AND SLEEPER INSULATION

Data Codes now available in SpecPro (c/o 8/12/24)

See FAB 314 (<https://daimler.highspot.com/items/669aba00f4a29cc2db69b4a3>) for more information.

### **New Premium Insulation (Cascadia Day Cabs)**

Beginning with builds August 12<sup>th</sup>, 2024, and after, Premium Insulation will now be available for Cascadia Day Cab models. Premium insulation offers greater thermal and acoustic efficiency compared to standard insulation.

Data Code:

739-034: PREMIUM INSULATION

Data Codes now available in SpecPro (c/o 8/12/24)

See FAB 315 (<https://daimler.highspot.com/items/669ab9f7f4a29cc2db69b495>) for more information.
