BULLETIN 24-008

Subject: MPL Top Deck Paint Specifications

Dear Valued Distributor:

This letter is to remind all distributors that the top decks on new style MPL bodies are shipping with grey epoxy primer like most of the other body and toolbox surfaces. The finish was changed from a JD Gloss Black powder coat on units built around the March 2024 timeframe. We have been occasionally receiving warranty requests for scratches on this surface.

Scratches on the grey epoxy primer top deck surface are not warrantable as they are intended to be sanded and painted. Please be advised that this needs to be shared with all team members assembling and painting these units.

If you have questions or concerns, please reach out to the Jerr-Dan Aftermarket and Warranty team.

Early Production MPL Body with JD Black Painted Top Surface
