

**To:** All Retailers, General Managers, Parts & Service Managers  
**From:** Subaru of America, Inc. – Fixed Operations  
**Date:** July 24, 2024  
**Re:** *Remanufactured Transmission Announcement*

---

Due to an extreme increase in some component costs, the following remanufactured transmissions will no longer be available once current inventory has been depleted.

**Part numbers:**

31000AG110R1	31000AG720R1
31000AG120R1	31000AG730R1
31000AG140R1	31000AG970R1
31000AG380R1	31000AG980R1
31000AG710R1	31000AG990R1

Additionally, retailers will have until October 1, 2024, to submit core returns for these part numbers via the normal core return channels. After that point in time, these cores will no longer be picked up for core returns and there will be no further core credits issued.
