

SSM 52730 2023-2024 F-Super Duty And 2024 F-150/Nautilus - Diagnostic Trouble Code (DTC) U211B:51 Stored In The TCU After Software Update Or An OTA

Some 2023-2024 F-Super Duty and 2024 F-150/Nautilus vehicles may set DTC U211B:51 in the telematics control unit (TCU) module after a software update on the TCU is performed at dealer or via over the air (OTA) Update. The DTC U211B:51 in the TCU has no effect on vehicle functionality or connectivity. Replacement or reprogramming of the TCU will not resolve this condition. DTC U211B:51 should be ignored if no other DTCs are present in the TCU and no symptoms present. No further service action is required.
