VAS6292 Hunter Aligner License Program Change

USA Only

Vehicle Type: **All Porsche**

Subject: **The Volkswagen Group has defined a new license model for updating vehicle alignment specifications on VAS wheel alignment systems worldwide starting in Q2 2024.**

Information: Alignment specification updates will only be possible with a valid **Annual License from Volkswagen Group AG**. The new standards apply to Volkswagen, Audi, Bentley, Lamborghini, and Porsche dealers worldwide.

Equipment

Requirements: VAS 6292 alignment system with Windows 10, HW2 or newer model PC with WinAlign 15.1 or newer. See page 2. Older equipment is no longer supported by the new licensing model. Equipment replacement or upgrade is necessary to receive future quarterly specification updates. Depending on the age and hardware level of your alignment unit, **equipment upgrades, or replacement may be necessary**. Contact your local equipment representative to evaluate your individual equipment options. Devices running Windows 7 (shipped up to 2017) will no longer be supported by the new licensing model. Therefore, a PC hardware replacement is necessary in order to be able to continue to use new vehicle target data.

Unsupported: VAG 1943 & VAG 1944 legacy Aligners

Required

Purchase: **VAS 6292/9** (Dongle) 1st year (2024) Valid only for 2024 calendar year period (Jan-Dec)
VAS 6292/10 (Key Card) 365 days from activation
Available for purchase via Porsche.snapon.com

Note: From Q2 2024, quarterly Volkswagen Group alignment specification updates will only be possible with a valid license. The annual license must be purchased from Volkswagen. Minimum equipment standards (capable VAS aligner) apply in order to receive the quarterly specification updates.

Dongle must be installed in the device by Hunter's service technician (all 2024 updates are guaranteed by the manufacturer regardless of the time of dongle installation.) Hunter Service Technician completes device registration (required for Key Card use 2025)

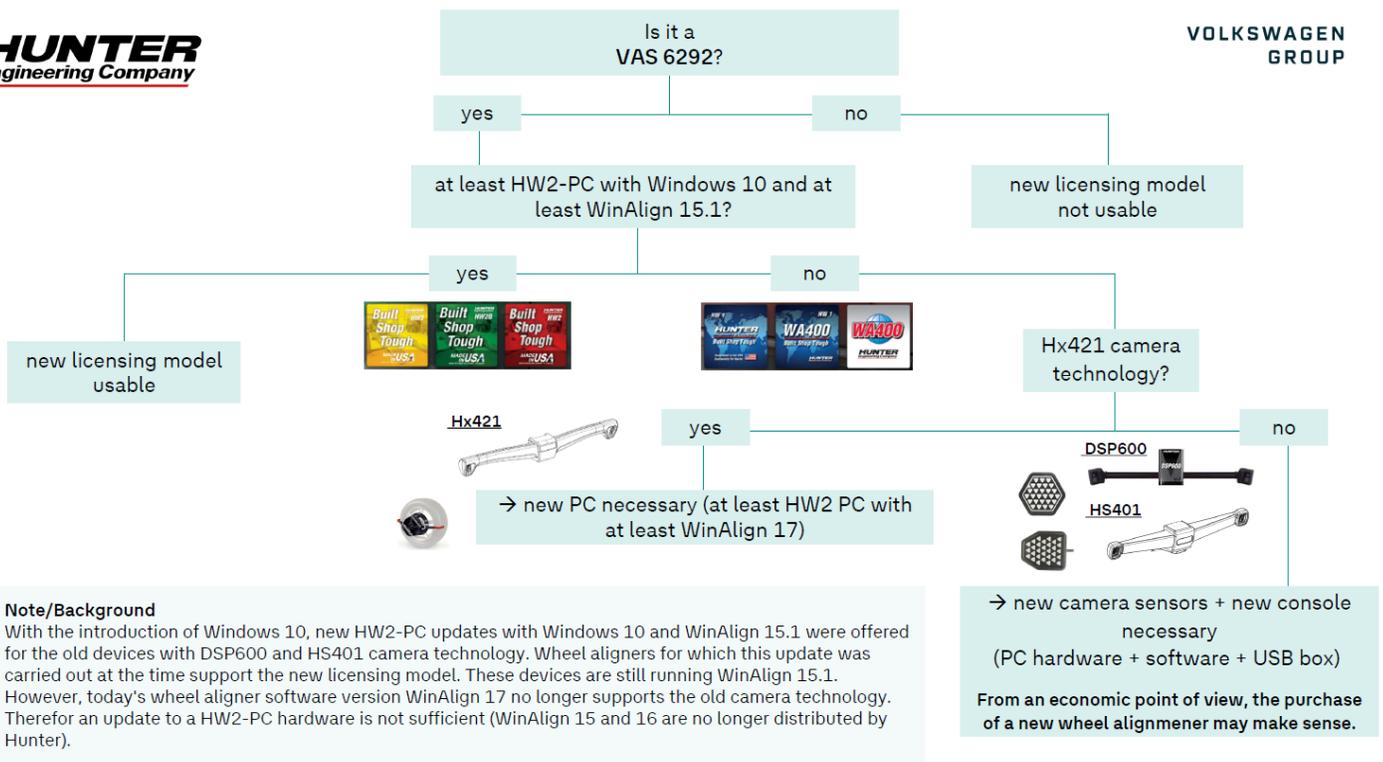

Key-Card: Enter the code in the wheel alignment computer (internet connection required)

Further

Information: In cooperation with VW AG, Hunter created a landing page to help explain their license model changes:
<https://www.hunter.com/vw-align>

VOLKSWAGEN GROUP

Note/Background

With the introduction of Windows 10, new HW2-PC updates with Windows 10 and WinAlign 15.1 were offered for the old devices with DSP600 and HS401 camera technology. Wheel aligners for which this update was carried out at the time support the new licensing model. These devices are still running WinAlign 15.1. However, today's wheel aligner software version WinAlign 17 no longer supports the old camera technology. Therefore an update to a HW2-PC hardware is not sufficient (WinAlign 15 and 16 are no longer distributed by Hunter).

Ordering Process:

Tools identified with a prefix of VAS, VAG and "T":

Place orders via porsche.snapon.com.

Tools with a prefix of 000 721, 918 721, PNA or "P"

Place orders via POLARIS (PPL).

Diagnostic Equipment:

Open a PRMS ticket. Technical Support >> [Tester Support](#)

Special Tool Support:

For questions related to VAS, VAG, and "T" tools:

Contact SBS customer care at 1-855-895-2013 or PorscheTEP@SnapOn.com.

For Polaris numbers 000.721, 918.721, PNA and "P" tools:

Open a PRMS ticket. Technical Support >> [Special Tools](#)

Diagnostic Equipment:

Open a PRMS ticket. Technical Support >> [Tester Support](#)

Workshop Equipment Classification:

- ★ Servicing and maintenance
- ★★ Replacement of units and assemblies
- ★★★ Disassembly of units and assemblies
- ★★★★ Rental
-  Body & Paint
-  High-voltage
