This document conveys Volkswagen Warranty general information.

Spark Plug Replacement on 2022-2024 Jetta and Taos

We have identified the following parts are commonly missed during spark plug remove and installed or replacement for cylinder 3 and 4:

- WHT003247 Air Duct Pipe Seal
- 04E145853* Retaining Clip for Air Duct Pipe
- 05E103474* Breather Tube (due to seals)
- WHT001386 Turbocharger Connection Seal

Effective immediately, Dealers will see Logical Criteria to identify if these required components are missing from the SAGA claim. The SAGA claim comments must indicate the specific cylinder the spark plugs were removed and reinstalled or replaced to help expedite claim review.

Not replacing all mandatory components will result in shop comeback which is not reimbursable under Warranty.
