ATTENTION: ALL DEALER PRINCIPALS

Kia America, Inc. is conducting a Voluntary Service Campaign on certain 2021-2022 MY K5 vehicles, manufactured from February 23, 2021 through May 3, 2021, that were originally sold in or are currently registered in one of the 7 high-heat states (AZ, FL, HI, LA, MS, NV, and TX).

The Heating, Ventilation, and Air Conditioning (HVAC) system provides cooling and heating to help maintain a comfortable environment inside the vehicle. The blower motor provides primary airflow for the HVAC system. Extended use of the HVAC at high fan speeds may cause damage to the multi-fuse terminals for the HVAC blower motor circuit, which can cause the blower motor to become inoperative, resulting in reduced heat and air conditioning airflow.

Dealers will relocate the blower motor 40-ampere fuse to another circuit within the multi-fuse which has an increased terminal width. This campaign will be performed free of charge at no cost to the customer.

In addition, Kia is extending the New Vehicle Limited Warranty coverage, to all owners, for repairs related to the HVAC blower motor in 2021-2022 MY K5 vehicles from 5 years / 60,000 miles to 15 years / 180,000 miles, whichever comes first, starting from the date the vehicle was first put into service.

Your Service Manager was sent a copy of the owner notification letter and a Q&A Guide both of which describe the issue and information on how to access the list of affected vehicles. Kia will start mailing notices to the affected vehicle owners beginning on **August 16, 2024**.
