**** Campaign Summary ****

Nissan has notified the National Highway Traffic Safety Administration (NHTSA) that it is issuing a Voluntary Safety Recall Campaign on seven (7) specific 2021 and 2024 Nissan Titan vehicles identified in Service Comm and DBS National Service History.

Due to a supplier issue that has since been corrected, the Airbag Control Unit (ACU) baseplate in affected vehicles is missing a spacer that prevents interference between the ACU baseplate fastener end and the vehicle's floor pan. As a result, the fastener may become loose due to potential floor pan interference. If the fastener becomes loose, the ACU will no longer be secure which could possibly result in a delayed inflation or non-deployment of the airbag; increasing the risk of injury in the event of a crash.

Dealers will replace the Airbag Control Unit.

**** What Dealers Should Do****

1. Verify if vehicles are affected by this Voluntary Recall using Service Comm or DBS National Service history – Open Campaign I.D. **PD120**
2. Dealers **must not sell, lease, trade, rent or loan** any vehicles in dealer inventory subject to this recall campaign until after the vehicle has been remedied.
3. Dealers should use **NTB24-041** to remedy any vehicles subject to this campaign.
4. Once repaired, dealers should submit the claim using the claims coding provided, and release the vehicle.

**** Release Schedule ****

Parts	Parts are on restriction and can be ordered via DBS. The parts restriction will be removed and can be ordered via normal process beginning August 20, 2024 . Please refer to NTB24-041 to determine the parts required to complete the remedy for this campaign.

Owner Notification	Nissan will notify the owners of potentially affected vehicles beginning September 2024 .

**** Dealer Responsibility ****

It is the dealer's responsibility to check Service Comm or DBS National Service History using the appropriate Campaign I.D. for the campaign status on each vehicle falling within the range of this voluntary recall campaign, which for any reason enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in new vehicle inventory. If a VIN subject to this recall campaign was part of a dealer trade, the letter associated with that VIN should be forwarded to the appropriate dealer for service completion.
