

## GPOP - Issue Review System

**Part Number:** 68144065A\$

**Part Description:** Universal garage door opener

**Issue Description:** Before replacing the Universal Garage Door (UGDO), please follow these steps:  
1. Press 1 and 3 button (outside buttons) in the same time. 2. Keep them pushed for approximately 20 seconds until the LED starts to flash rapidly (Warning: If you keep pressing the HOMELINK passed the 20s, the UGDO will be blocked). (Do not repeat this steps to program the other two buttons) HomeLink feedback is located above the HomeLink button 2. An LED light will illuminate to indicate programming status.
