

Title:	Side Roll Protection (SRP) Resistor Leg Locations			
Number:	SB_702	Release Date:	07/23/2024	
Revision Number:	Not Applicable	Revision Date:	Not Applicable	
Chassis Type:	Custom Chassis			
Component Description:	Unused legs of SRP harness w/ resistors			
Tools:	Multimeter			

Purpose:

The purpose of this bulletin is to reduce labor hours by standardizing the location(s) of the unused legs of the SRP harness that contain resistors. This will help technicians in the field perform diagnostics without removing unnecessary panels while searching for these resistors.

Procedure:

New Resistors:

NOTE: Resistor style has changed. Resistors with the black loop are discontinued and, upon failure, should be replaced with PNs: 63-1807 and 4442203.

New Resistors

SERVICE BULLETIN #702

Resistor Locations:

Remove necessary cover panels as required to gain access to unused SRP legs containing resistors.
