

## **Delivery Stop STOP710015 for the CE 02**

A delivery stop has been announced for the CE 02 (K06) produced between December 20<sup>th</sup>, 2023 to June 6<sup>th</sup>, 2024.

After a quality inspection it was found that the "Tire" and "Emissions Control" labels contain incorrect data.

Affected vehicles are flagged in AIR (Aftersales Information Research) with campaign code STOP710015. Please note, open campaigns or vehicle stops may not appear in DCS Warranty Vehicle Inquiry or sales systems until 24-72 hours after they are announced, therefore AIR is always the recommended method for determining open campaigns and vehicle stops.

If you have a vehicle in your new/used inventory matching the above description it cannot be retailed until repaired.

Next steps are being determined and a bulletin with technical measures will be published once information is available.
