

SSM 52795 2024 Bronco Sport/Escape, 2025 Explorer – Dealer Installed Option (DIO) SecuriCode® Remote Keyless Entry (RKE) Wired Keypad Installation

Some 2024 Bronco Sport/Escape and 2025 Explorer vehicles may have been ordered with a DIO SecuriCode® RKE wired keypad that requires installation and enabling by the dealer prior to delivery. To install the wired keypad refer to Workshop Manual (WSM), Section 501-14 > Keyless Entry Keypad Removal and Installation. Once the SecuriCode® RKE wired keypad has been installed it must be enabled using the Ford Diagnostic Repair System (FDRS) BCM - Remote Keyless Entry (RKE) Wired Keypad Code Programming application. Refer to the instructions available on PTS at Workshop Tab > Accessories > Installation > Electrical > 2024MY Bronco Sport, 2024MY Escape, 2025MY Explorer, SecuriCode® Keyless Entry Keypad. Payment for Installation is automatically credited to the Ship-To Dealer on the Miscellaneous Parts Statement and should not be claimed as a warranty repair. Refer to the Warranty and Policy Manual for Ford Licensed Accessories for additional DIO program information.
