SUBJECT: HEADLAMP ASSEMBLY DESICCANT PACK DISPOSAL

This Pitstop provides information regarding the disposal of the headlamp assembly desiccant/absorbent pack(s) on some 2020-2024MY Telluride (ON) vehicles equipped with either Halogen or LED lamps. The headlamp desiccant pack(s) may expand over time during normal vehicle operation. Desiccant pack expansion is normal. Desiccant packs are a consumable part and once the pack has fully expanded, it is no longer a functioning part. If the desiccant pack/bracket is determined to be expanded as shown below, it is recommended to be removed from the dust cap and then be discarded without a required replacement.

Note: The headlamp dust cover may be reinstalled after removing the desiccant pack/bracket.
