

# McLaren 750S Spider Dynamic Flap Foam Adhesion

**This document is uncontrolled when printed. Before use, check the Knowledge Base within the McLaren Retailer Portal to verify that this is the current version.**

## Document Information

**Location:** Body Interior

**Topic:** Loose foam on RHT dynamic flap

**Condition:** Permanent

**Diagnostic Trouble Codes:** N/A

## Measure

If the foam attached to the RHT dynamic flap is reported loose and lacking adhesion, please complete the following steps:

Example of loose foam:

- Remove foam strip from dynamic flap armature.

- Remove and clean any remaining residue from the armature.
- Apply Loctite 406 to entire length of the surface from which the foam was removed. Ensure coverstock is not contaminated with adhesive.

- Refit foam strip, applying force for 30 seconds to ensure adhesion.

- Repeat on opposite side if required.

## Parts Information

Loctite 406

## Attachments

N/A
