

Bulletin No.: PIC6564

Published date: 07/30/2024

Preliminary Information

PIC6564 Diagnostic Tip: For Adding Trailer Lighting Or Trailer Lights Inoperative For Vehicles Built Without RPO: V92

Models

Brand: Cadillac XT4 **Model:** 2024 - 2025 **Model Years:** All **VIN:** All All **Engine:** All All **Transmissions:** All

Involved Region or Country	North America
Addition options (RPO)	Without V92 (TRAILER PROVISIONS) V08 (HEAVY DUTY COOLING SYSTEM)
Condition	Customers may inquire about adding a trailer hitch and/or trailer lighting or a technician may find that the trailer lighting is inoperative.
Cause	Calibrations for trailer lighting are not available for vehicles built without RPO option V92.

Correction:

No repairs or attempts to install a trailer hitch or trailer lighting should be performed.

The installation of a trailer hitch and lighting is NOT allowed for vehicles that are built without RPO options V92 (Trailer Provisions) or V08(Heavy Duty Cooling System) due to the impact it could have on the safety and performance of the vehicle.

The addition of a trailer hitch and lighting for vehicles NOT equipped with RPO options V92 (Trailer Provisions) or V08(Heavy Duty Cooling System) may void certain warranties.
