Case Number: S2424000008

Release Date: September 2024

Symptom/Vehicle Issue: AC Blows Warm

Customer Complaint/Technician Observation: Customer indicates that the AC blows warm unless the vehicle is being driven. When the vehicle comes to a stop or idle the air temperature becomes warm.

Discussion: This is a known condition and is under investigation currently. Do not replace any components for this specific condition.

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.

Contact STAR Center, or your Technical Assistance Center Via TechConnect, eCONTACT or Service Library entry if no solution is found.
