

SSM 52930 2025 Aviator - Interior Door Panels - Protective Film Adhesive Residue Removal During ePDI

When removing blue protective film from interior door panels during electronic predelivery inspection (ePDI) on 2025 Aviator vehicles, use a clean soft cloth and locally available 50% isopropyl alcohol to remove adhesive residue. Refer to the Ford Warranty and Policy Manual, Section 2.9.01 Guidelines > Storage of New Vehicles.
