FOR THE ATTENTION OF ALL:

DESCRIPTION OF ISSUE

A potential concern has been identified on specific vehicles within the above vehicle range.

Certain 2020 to 2022 Land Rover vehicles are failing to complete Software Over The Air (SOTA) updates, specifically Vehicle Domain Controller (VDC) PIVI and Gateway Module A (GWM). These vehicles have now been stopped from further SOTA attempts and require a wired intervention.

ACTION TO BE TAKEN

At the next opportunity, you are requested to repair the vehicle.

Following procedures appropriate to your market and as required by local legislation, owners of affected vehicles should be contacted requesting that the owner contact their nearest retailer/authorized repairer as soon as possible to arrange for the repair to be completed. The National Sales Companies (NSCs), Importer, Regional Office or Government agency will contact the customers. If you have any questions about this process, please contact your NSC/Importer or Regional Office for more information.

Check the JLR Warranty Portal to make sure affected vehicles are correctly identified prior to starting this campaign. The Warranty Portal will be updated to reflect only those vehicles affected.

An owner may indicate that a repair has already been completed for this concern, in which case the full cost of the repair should be reimbursed. Refer to the warranty section of this campaign for details of the Customer Reimbursement and Related Damage Process. At the time of confirming a booking for a vehicle repair, make sure you check the Warranty Portal to confirm if there are any other outstanding campaigns, to make sure the correct parts are available and adequate workshop time is allocated for repairs to be completed in one visit.

FOR THE ATTENTION OF NORTH AMERICAN TERRITORIES ONLY:

Visit the British Brands Sales Suite (BBSS) website for a list of affected vehicles at your retailer/authorized repairer. Unsold vehicles must be repaired prior to handover of the vehicle for retail sale.

Yours faithfully

An important message for owners of Defender, Discovery, Discovery Sport, Range Rover Evoque and Range Rover Velar vehicles

Dear

We are providing a Customer Satisfaction Program free of charge to owners of certain 2020 to 2022 Defender, Discovery, Discovery Sport, Range Rover Evoque and Range Rover Velar vehicles .

Why are we contacting you?

The Software Over The Air (SOTA) functionality may not work as intended and will not let you have the latest updates installed on your vehicle.

What will your Jaguar Land Rover retailer/authorized repairer do?

We will update the software on your vehicle manually. This will be done free of charge under the terms of this program.

How long will it take?

We will complete the work as quickly and efficiently as possible to minimize inconvenience to you. Your retailer or authorized repairer will advise how long they will need your vehicle when you make the booking.

What we are asking you to do

Call your preferred Jaguar Land Rover retailer/authorized repairer without delay. Quote your Vehicle Identification Number (VIN) (located at the beginning of this letter) and vehicle registration number, ask for a repair date for N796. If you do not have a retailer/authorized repairer, please access www.landrover.co.uk or www.landrover.com for contact details.

If you have trouble getting your vehicle repaired promptly and free of charge, contact the retailer/authorized repairer Service Manager for assistance.

Thank you for attending to this important matter.

Yours sincerely

Head of Business
