Field Service Campaign

September 2024
SF697 A

Subject: eCascadia EQ Bonding Cables

Models Affected: Specific model years 2023-2024 Freightliner eCascadia vehicles, manufactured May 16, 2022, through October 17, 2023.

General Information

Daimler Truck North America LLC (DTNA), on behalf of its Freightliner Trucks Division, is initiating Field Service Campaign SF697 to modify the vehicles mentioned above.

On the affected vehicles, equipotential (EQ) bonding cables, connected to various points on the chassis frame, do not have adequate strain relief, which may cause cable terminals to fatigue and break.

Longer cables and brackets with strain relief will be installed.

There are approximately 409 vehicles involved in this campaign.

Equipotential Bonding cable locations addressed in SF697
