

SEAT CLASH WHEN FOLDING

Customer Voice:

- The second row seat clashes with the front seat when folding.

Technical Description:

- This may occur if the front seat clash avoidance feature is turned off through the seat settings menu on the touch screen.

Status:

- Before performing any diagnosis of the seat operation upon a customer complaint, please first confirm the clash avoidance setting .
- This is covered under Section 501-10 Seating – Description and Operation - Seats
