

SSM 53023 2024 F-150 Non-Lightning - Equipped With Minor Feature Codes C2BAW, C1CAG And FDDAA - Installing The Trailer Brake Contoller Kit

Some 2024 F-150 non-Lightning vehicles equipped with minor feature codes C2BAW, C1CAG and FDDAA may require the installation of a new trailer brake contoller kit at the request of the customer. To confirm a vehicle is built with a certain minor feature code, review the build information by double-clicking the vehicle identification number (VIN) in the upper left corner in the Professional Technician System (PTS). The parts catalog has been recently updated to include a unique trailer brake controller kit for 2024 F-150 non-Lightning vehicles. The correct trailer brake controller kit part to use in service for 2024 F-150 non-Lightning vehicles is RL3Z-19H332-AA. Do not install trailer brake controller kit ML3Z-19H332-AB on 2024 F-150 vehicles.
