

IMPORTANT SERVICE CAMPAIGN

EGR Valve Assembly and Gasket Replacement

This is an important Manufacturer's Service Campaign.

- Please contact your nearest Hyundai dealer to schedule this procedure.
- The service campaign will be performed on your vehicle at **NO CHARGE** to you.
- Having this service update performed will help ensure your vehicle's full protection under the emissions warranty.
- Failure to have this service performed could cause your vehicle to fail an emissions inspection (SMOG check) when required under state law. It could also be considered a lack of proper maintenance.
- To locate your nearest Hyundai dealer and schedule your appointment, please call or visit:

This notice applies to your 2024 Hyundai [Model] vehicle, VIN: XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

The California Air Resources Board has determined that **certain 2024 model year Tucson, 2024 model year Sonata and 2024 model year Sonata Hybrid vehicles** may be releasing air pollutants which exceed Federal and California standards. These standards were established to protect your health and welfare from the dangers of air pollution. Hyundai is conducting a service campaign to replace the exhaust gas recirculation ("EGR") valve assembly and gasket. Our records indicate that your vehicle is affected by this campaign.

What is the purpose of this Service Campaign?

Hyundai has become aware that the subject vehicles may contain a faulty sensor in the EGR valve assembly which could potentially result in an electrical short. An electrical short within the EGR valve could lead to a malfunction of the EGR valve or crank position sensor, both of which reside on the same power circuit, resulting in the malfunction indicator light ("MIL") illumination and/or sudden loss of drive power during operation.

What will Hyundai do?

Your Hyundai dealer will replace the EGR assembly and gasket. This procedure will be performed at **NO CHARGE** to you.

What should you do?

Please contact your nearest Hyundai dealer to schedule this procedure.

The actual time required to perform this procedure on your vehicle will take less than 3 hours, however, your vehicle may be needed longer. To schedule an appointment with your preferred Hyundai dealer, please call **1-855-371-9460** or visit:

1. Visit www.hyundaiusa.com/campaignhome
2. Enter your 17-digit Vehicle Identification Number ("VIN") from the top of this letter and click the "Search" button.
3. Click the "Schedule Appointment" button and follow the onscreen prompts.

Are you a California registered owner?

The California Air Resources Board requires that **emissions-related campaigns, such as this, be completed prior to annual vehicle registration renewal**. Without repair, you may not be able to complete your vehicle registration and obtain a license tag. Once this repair has been completed, your Hyundai dealer will provide a "Proof of Correction Certificate." The California Department of Motor vehicles (DMV) may request this Proof of Corrections Certificate during your next vehicle registration. This certificate should be kept with your vehicle records thereafter.

Are you a registered owner in Colorado, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont, or Washington?

Because your state has adopted the California emissions regulation, your Hyundai dealer will also provide a "Proof of Correction Certificate" once this repair has been completed. Your state's Department of Motor Vehicles, Department of Transportation, Motor Vehicle Administration, Motor Vehicle Commission or Department of Licensing may request this Proof of Corrections Certificate during your next vehicle registration. This certificate should be kept with your vehicle records thereafter.
