Background

American Honda Motor Co., Inc. (AHM) is searching for certain 2024 Civics with a customer complaint of the passenger side rear window inop from the master switch on the driver's door as well as its own switch. To better understand the cause of this condition, AHM would like to collect specific parts from the vehicle prior to you attempting a repair of any kind.

Qualifiers

AHM is interested ONLY if the vehicle meets the following requirements:

1. Manufactured date on the driver's door jamb must be AFTER 08/23.
2. Passenger side rear window Inop condition must be constant – no intermittent issue.

VIDEO REQUEST:

- a. Before capturing the video, gently remove door panel;
 - b. Capture video by toggling window switch up & down, showing no window movement;
 - c. Make comments if motor sound can be heard & motor is warm.
3. Window noise or slow condition alone without INOP not accepted.
 4. Previous replacement of window regulator accepted.
 5. No repair has been attempted for this issue during the current visit.

Action Required

If a vehicle matching the qualifiers above comes into your dealership, please e-mail Technical Information & Support (TIS) at tis@ahm.honda.com, or call us at 800-880-1072 (Monday-Friday, 7am-5pm PST).
